

Please do not set a priority over FM translator stations such as KLOVE take place for LPFM stations. KLOVE needs to be a priority to the communities it broadcasts to. It reaches so many people in so many different cities and states and it needs to continue doing so. We listeners support KLOVE because we know what good they are doing to change lives -- children and adults. God's word needs to be spread around the country and KLOVE is doing it best by reaching all over the nation. They have reached and changed over 8,000 lives this year alone and bless each one of us listeners with their music. Please, please don't let the LPFM stations take priority! We need stations like KLOVE around to broadcast the Good News!
